Work is progressing on the Gibbon-Hastings branch of the Union Pacific and it will be opened for traffic not later than June 1, of this year. The track laying has been carried on from the Gibbon end of the cut-off and has now reached a point about eight miles south of the Platte river, or about half way between Gibbon and Hastings. The distance between the terminals is twenty-seven miles.

Four years ago Jesse E. Rector purchased from Roy B. Tabor, Trustee, lot 27 of Platteview Subdivision for \$250 and he has just now sold this lot to L. F. Simon for \$725 cash. No improvements were added to this lot and this instance is pointed to by the owners of the lots, advertised for sale on the first page of this issue, as an illustration of the value of these lots as an investment.

Saturday it was very evident that the people of our city are realizing what a great sacrifice is really being made at the Dixon auction sale. The store was packed to its capacity and many were standing in the street trying to gain admission, so eager were the people for a chance to buy from this fine stock at really sacrifice prices. The sale will continue every afternoon and evening of this week and the indication is that this will be the big week of the sale. Mr. Dixon says positively the sale will close Saturday of this week.

### To Auto Drivers.

Auto drivers are notified that the law relating to the speed of cars will be enforced. The speed limit is twelve miles on streets, which must be reduced to six miles when passing over street intersections. The law relating to lights on cars at the specified time will also be enforced.

## SPECIAL ON CARNATIONS

Pass Greenhouses.

A social function notable for the large number in attendance, the enjoyment which redounded to each guest and the handsome gowns worn, was held at the Odd Fellow hall last evening, when the twenty members of the Indian card club were hostesses at a 500 party. Each member had been given the privilege of inviting her husband or gentlemen friend and also an additional couple, which resulted in attendance of about eighty. The guests were cordially received by the committees, a half hour spent in greetings and at 9:30 place cards were distributed and the enjoyable game began and continued with much zeal and merriment for two hours, when a splendid lunch was served under the direction of Mrs. James Hart, the Misses Harriet Dixon, Helen Waltemath, Mildred Fitzpatrick, Hazel Barber, Hazel Smith, Blanche Fonda, Grace Burke and Margaret Jones assisting. The feature of the evening and that which made the function so enjoyable was the unreserved courtesies, amiability and jolly mood of each. It was indeed a gathering of sociable people bent on making the evening one to be remembered. Viewed from every angle the party was a most successful one, and the hostesses well earned the compliments received.

We are not going out of business but simply reducing our stock and are glad to see our friends take advantage of this exceptional chance to buy at such exceptional prices.

DIXON, The Jeweler.

The Post Mortem examination held on the body of Sidney Dillon April 18, 1913, showed the scars of an old fracture in the base of the skull on the left side. The brain above this old fracture was degenerated and the whole left half of the brain was softer than normal and was red from inflammation. The ventricle in the left half of the brain was almost entirely obliterated by inflammatory adhesions. The convolutions over the surface of the brain were flattened showing evidence of pressure inside the skull.
